NEW TERMS OF SALE—Net Cash Prices.

FOR a number years it has been our custom to offer a series of premiums on orders in the shape of discounts, etc. Realizing that in many instances this was complicated and confusing to purchasers, we have decided to abandon all such, and to reduce our prices to a corresponding or even lower level, a plan which we feel will be more satisfactory to buyers in every respect. Congress has passed a law imposing 25 per cent. duty on all imported flowering bulbs, but we have decided to maintain our very low prices of last year, which were hardly above cost of importing, and we look forward to your future orders for our compensation trusting that you will remember us to your friends and neighbors next spring.

REMARKS ABOUT ORDERING.

Read and Follow Carefully, This Will Insure You Prompt Service on Our Part.

OUR PRICES ARE STRICTLY CASH WITH ORDER.

The proper remittance should accompany the order, and should be enclosed with it.

HOW TO ORDER—We do not send Seeds, Plants and Bulbs C. O. D. Write your name, Post Office, Street and Number, County, State and your Express Office plainly in black ink, on every order and every time you write to us. Give plain shipping directions; where none are given we use our best judgement, but it must be at your expense and risk.

PREPAID—Prices given in this catalogue include prepayment by mail on Bulbs, Plants and Seeds except where offered "by express," then it is meant that the purchaser is to pay charges.

REMEMBER—Sometimes in the busiest season others may have orders ahead of yours, which must be filled in rotation. Order early.

COST OF REMITTING—Our customers may select additional bulbs FREE, with every order to the amount of the cost of the money order, registered letter or other remittance.

VERY IMPORTANT—Your can greatly aid us by using Order Sheet, as follows:

1. Place the quantity wanted before each order.
2. Use only one line for each kind ordered.
3. As nearly as possible make out your list in the same order in which goods are catalogued, beginning at the front.

HOW TO PAY—Send cash with order (we can only send

to value of money received) by New York or Chicago Draft, Registered Letter, Money Order, Express Order, or Cash by Express, in any of these ways at our risk. Postage stamps are taken as cash. Registered Letters are generally very safe and you can send that way from any postoffice and get our receipt by return mail, showing letter has reached us. When coin is sent it should be carefully wrapped or pasted between two pieces of paper or on cardboard. We cannot be responsible for loose coin as it cuts through the envelope.

ERRORS—If stock is not as expected, compare with the order, read catalogue rules carefully, and if we are in the wrong write us at once, giving all particulars, as in paragraph above; do not complain to others until we have had a chance.

TIME OF SENDING—Not all Fall Bulbs are ready at the same time, but nearly all of the Dutch and French importations are in store by September 15th. The following table gives approximate date of arrival.

October 20th, full supply of Lillies, Chinese Narcissus, Dahlias, Pæonies and Gladiolus; November 15th, Spiræa, Lily of the Valley, new crop of Tuberoses.

Unless otherwise stated by our customers we always forward such bulbs as are ready on receipt of order, and the balance as fast as the different kinds arrive. If other arrangements are desired please to so state at the bottom of the order.

WE GUARANTEE SATISFACTION and safe arrival of goods to any point in the United States or Canada, whether by Mail or Express.

ROMAN HYACINTHS.

WE WISH to call special attention to these beautiful Roman Hyacinths, which are so valuable for early Winter blooming. Each bulb throws up several spikes of flowers, very beautiful and fragrant, and when kept in a cool room will keep perfect for weeks. Three can be planted in a four or five inch pot, and will soon be in flower. In the garden they are first of all Hyacinths to bloom. We offer extra large bulbs. Do not fail to plant a good lot of them for Winter.

The Grape Hyacinth, Improved.

This charming little gem should be found in every garden in abundance. It has been termed the "Blue Lily of the Valley," and when planted in a mass with that sweet flower it does resemble it to some extent, and forms a most fascinating combination. It grows about the same height and blooms about the same time each Spring. It increases rapidly, and when once planted a mass of beautiful blossoms,

which will increase each year, is insured for a lifetime. But for Winter blooming in pots it is of the greatest value. Plant five or six bulbs in a five-inch pot and you will have as lovely a pot of bloom as you can imagine. Words fail to do it justice. Flower stems grow a foot in height, bearing a dense spike of sky-blue bells tipped with white, and oh! so lovely. Please remember that ours is an improved strain of Grape Hyacinth, much superior to the old form.

IMPROVED BLUE—Price, 3 for 5 cents; 12 for 15 cents.

SNOW WHITE—New and scarce. Price, 2 cents each; 6 for 10 cents.

TULIPS

Are such universal favorites that it is scarcely necessary to expatiate upon their merits here. Their ease of culture, combined with beauty of form and gorgeous coloring, render them the most popular bulbs grown for Spring bedding, and for Winter flower in the greenhouse and window garden they are incomparable. The Tulip is extremely hardy and of easy culture, flowering as freely in the shade as in the sunshine, and producing as fine flowers in a confined town garden as in a more favored place. Double and Single Tulips, when associated together and planted in front of shrubs, maintain a longer display than if either are separately planted. In gardens where the flower beds must be kept gay from the earliest day of Spring, plant between the lines of Tulips, Scilla Siberica, Chionodoxa Lucilæ, Snowdrops or Crocus, and as these flower first they can be removed or cut down when the Tulip is coming into bloom. The Single Tulip has a greater variety of rich, delicate and attractive colors than any other section of Spring-flowering bulbs. Those only who have massed the different varieties, planting the bulbs four inches apart, can form an idea of their beauty and their great diversity in shade and color, and the grand effect they produce grouped in flower beds or borders.

THE CHINESE SACRED LILY.

The "Shui Sin Far," or Water Fairy Flower, Joss Flower or Flower of the Gods, etc., as it is called by the Celestials, is a variety of Narcissus bearing in lavish profusion chaste flowers in silvery-white, with golden-yellow cups. They are of exquisite beauty and entrancing perfume. It is grown by the Chinese according to their ancient custom, to herald the advent of their new year, and as a symbol of good luck. The bulbs are grown by a method known only to themselves, whereby they attain great size and vitality, insuring luxuriant growth and immense spikes of flowers. In fact, the incredibly short time required to bring the bulbs into bloom (four to six weeks after planting) is one of the wonders of nature. "You can almost see them grow," successfully almost everywhere and with everybody. They do well in pots of earth, but are novel and beautiful grown in shallow bowls of water, with enough fancy pebbles to prevent them from toppling over when in bloom. A dozen bulbs started at intervals will give a succession of flowers throughout the winter. See cut. We are importing direct from China immense bulbs of the true large-flowering variety. Price, 15 cents each; 5 for 50 cents. A dozen bulbs planted one a week will give a supply of flowers all winter.

GIANT GOLDEN SACRED LILY.

This elegant flower is larger and sweeter than the Chinese and golden yellow. Can be bloomed very quickly in soil, sand or pebbles and water. Can be had in bloom by the holidays and will thrive in garden or window, being hardy. Don't fail to try them. 5 cents each; 6 for 25 cents.

“The fairest of all things that blossom and grow,
Sweet as the Summer and pure as the snow,
Is the Lily that tells,
Like the glad Easter Bells,
Once more the sweet story which all hearts should know.”

The True Bermuda Easter Lily, *Lilium Harrisii*—See cut.

THIS peerless Lily is the greatest acquisition to floriculture in many years. Their profusion of bloom, the remarkably short time required to bring them into flower, and the certainty to produce abundant bloom, and also the ease with which they can be manipulated to be flowered at any desired period, such as Christmas, Easter and other special occasions, render them invaluable. The flowers are delightfully fragrant, pure waxy-white, of great substance, and if cut as soon as they are open, or partially open, they can be kept for two weeks. A short time only is required to bring them into bloom. Bulbs potted in August can be had in flower in November if desired. A succession of bloom can be kept up from November to May by bringing the pots of rooted bulbs in from cold frames at intervals throughout the Winter. The quantity of bloom produced is marvelous, the average production of bulbs five to seven inches in circumference, even when forced, is from five to eight flowers, and of bulbs seven to nine inches, eight to twelve flowers; and if desired a second crop of flowers, frequently equal to the first, can be secured the same season by drying the plants off after blooming for a time and then again starting them. Blooming plants in pots form typical Easter offerings and presents, for decoration of the window, table, house or church, nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every Winter for this purpose. As a garden Lily it is of great beauty, being entirely hardy excepting in northern climates, where it requires a protection of leaves or litter to a depth of 5 or 6 inches. Price, for large bulbs, 15 cents each; 4 for 50 cents; 10 for \$1.00.

Lilium Auratum—The Golden-Banded Lily.

Of the many Lilies we owe to Japan, none can compare with the Great Golden-Banded Lily. It is the grandest of all Lilies for growing in the open ground or in pots; entirely hardy, last for years, increasing in size and beauty each season. Stalks 3 to 6 feet high, crowned with masses of splendid white and gold flowers, 4 to 6 inches in diameter. The odor is fascinating. We offer fine, strong bulbs, sure to bloom; standard size, first quality. 25 cts. each; 3 for 60 cents.

Berlin Mammoth Lily of the Valley.

No flower is more tenderly lovely than this. Its graceful waxen bells are filled to overflowing with the most delicious perfume, and set among its own glossy green leaves it is indeed the gem of the garden. It succeeds in the open ground in almost any situation, but prefers a somewhat moist location. A top dressing of well rotted manure or rich soil in the Autumn will be found a great benefit. For house culture they are invaluable and easily managed. Place rather thickly in pots or boxes, scattering a light soil or turfy loam among the roots, but not over the tops, then cover with moss or some such substance and place out doors until a sharp frost, when they should be brought indoors and given plenty of heat and considerable moisture. Take care to keep them shaded from the hot sun with cloth until the stems are two or three inches high, when the shading should be removed to develop the flower. They make a charming sight, when grown in large patches, in partially shaded localities around the lawn, near the borders of streams, lakes, springs, etc.

Price for the Berlin Mammoth Large Flowering Lily of the Valley, 5 cents each; 6 for 25 cents, 12 for 40 cents. Ready in November for shipment.

JAPANESE WHITE SPIDER LILY.

ATAMASCO LILIES.

— RANUNCULUS. —

This class of bulbous plants is among the finest of all flowers. The French Ranunculus especially are distinguished by great strength, size and beauty. They attain to a height of from ten to fifteen inches, and the hues and colors of their many varieties, varying from pure white and yellow to bright vermilion and crimson, are really beautiful. The Persian Ranunculus are a little smaller than the French, and also more dwarf. However, their colors are as fine and exhibit the most beautiful shades, and are of the most graceful form. The Turban, or Turkish, Ranunculus differ very much from each other, and display lovely oriental beauty of coloring. Can be grown easily in pots or out of doors if protected. See cut.

FRENCH RANUNCULUS—Price, 4 cts. each; 40 cts. per doz.

Ornithogalum Arabicum.

The Star of Bethlehem.

We introduce this as a new Winter blooming bulb of great beauty and value. In magnificence there is nothing like it among Winter-blooming bulbs or plants. Even the grand Hyacinth must be preceded by the stately beauty of this flower. It is a native of Arabia. Bulb large and solid, closely resembling that of a Hyacinth, and requiring exactly the same culture. Leaves long and narrow; flower spikes 18 to 24 inches high, strong and graceful, bearing an

immense cluster of large pearly-white flowers, having a jet black center. The individual flowers keep perfect many weeks before fading, so that for more than a month this grand spike of bloom is in full glory. Its durability is almost without an equal among flowers. Add to this its delicate aromatic fragrance, and we have a Winter-bloomer almost without a rival. Its culture is the easiest, as it will grow in any position in any window. A bulb can be planted in a four-inch pot, or several in a larger pot or box. Pot in September, October, or November. They can even be kept and planted as late as February first. For open ground culture they do well if kept from freezing severely.

Price, 6 cts. each; 3 for 15 cents.

IRIS—Flowering Flag—Fleur de Lis.

Hardy Spring-blooming plants, bearing large, rich and various colored flowers. They are of easy culture and thrive in any good garden soil. They are perfectly hardy without protection and require but little care. All the varieties can be forced into early bloom in the house and make a cheerful display.

IRIS SUSIANA—If every lover of flowers could see this grand plant in bloom, we really believe not one in one hundred would refuse to pay one dollar each for one or more bulbs of it. Among all flowers there is hardly one of such oddity and striking beauty. The bloom is of enormous size, and in describing it we say "it is chocolate and black mottled, beautifully veined with grayish white," yet from this no one can form a correct idea of how the plant looks. It is indescribable, and the planter will be surprised when he sees it. It is perfectly hardy, and blooms in May. In July the foliage dies down, and the bulbs lie dormant until late Fall or the next Spring. Try it, and when it blooms you will undoubtedly pronounce it the most beautiful flower in your garden. Ready in November. Price, 15 cents each; two for 25 cents.

IRIS ENGLISH—Large flowers, rich blue shades predominating; mixed. 5 cents each; 6 for 25 cents.

IRIS SPANISH—This sort blooms two weeks earlier than the English, various colors, from golden yellow, dark brown, bronze, dark blue, purple, light blue and white, extremely beautiful and grand for cut flowers. 2 Bulbs for 5 cents; 12 for 25 cents.

ALL COLORS MIXED—A splendid mixture of all colors. The price is so low that at least a few should be included in every order. Price, 3 cts. each; 12 for 25 cts.

SCILLA SIBERICA-STAR HYACINTH.

Scilla Siberica is one of the loveliest Spring flowers. It has a color almost as deep as the sky itself. It is quite hardy, and flowers out of doors at the same time as the Snowdrop, in front of which it has a charming effect. If planted in pots and kept indoors it may be had in bloom as early as Christmas. Its magnificent, bright blue color makes it suitable for any decorations whatever. Price, 2 for 5 cts.; 25 cts. per dozen.

SCILLA SIBERICA.

BABIANAS—A charming genus, with leaves of the darkest green, thickly covered with downy hairs, and bearing showy spikes of flowers; rich self-colors, or the striking contrast of very distinct hues in the same flower. They vary from the richest carmine to the brightest blue, many of them being sweet-scented. As they are not hardy north of Washington, they should be grown in pots. Five or six bulbs in a five-inch pot make lovely and useful specimens.

Mixed Varieties, 3 for 10 cents; 35 cents per dozen.

Freesia Refracta Alba.

No description can do adequate justice to this beautiful plant. The flowers are two inches long and about the same in width, shaped like miniature Gladioli, and borne in clusters of six to ten on depressed horizontal scapes. The body of the flower is pure white, with lower segments spotted lemon-yellow. The perfume is delicious, being a mixture of Mignonette, Violet and Jasmine, and one plant is sufficient to perfume a large room, without the overbearing perfume of Hyacinths and Tuberoses. The plant has tooth-shaped bulbs and flat-spreading leaves. Its cultivation is of the simplest, requiring only to be potted in October, to be watered sparingly at first, placed in a sunny window and watered more as growth progresses. When out of flower, store in some cool place and repot at proper season in fresh soil for another year's growth. See cut. Price, 3 cents each; six fine bulbs for 15 cents; twelve for 25 cents.

Winter Aconite.

Appears just after the Single Snowdrop. Its large, glossy yellow flowers, set in a close cup of leafy green, are wondrous cheerful in the dull Spring landscape; can be flowered in a cool room, used as edging for other bulbs, planted under the edge of evergreens, or naturalized under trees, or around rock work; must become a general favorite. Two for 5 cents; twelve for 15 cents.

OXALIS.

Bermuda Buttercup Oxalis.

An unrivaled Winter-flowering Pot Plant, of easy culture, succeeding anywhere. This is the finest of all Oxalis. Strong, luxuriant grower,

New Hybrid Tea Rose, Souv. de Pres. Carnot.

A charming new French Rose; one of the most promising new Roses we have had the pleasure of offering in years, and we predict for it a grand future with the cut-flower-growers. A strong, clean, healthy grower with handsome, bronzy green foliage and large, elegant shaped buds. The flower is of large size, of exquisite shape, with heavy, thick, shell-like petals; buds long and pointed, similar to Niphetos, but very much larger, and all borne on long, stiff, erect stems. Color, delicate rose flesh shaded a trifle deeper at the center. A profuse bloomer. Price, 15 cents each; 4 for 50 cents; one size only.

The Grandest of All New Roses,

CLIMBING METEOR—This new Rose might more properly be called a Perpetual Blooming Climbing General Jacqueminot. Though a sport from that finest of all Hybrid Teas, Meteor, it is much larger and of a deeper richer color, equalled only by the peerless Jacqueminot, and will produce 20 blossoms to Jacqueminot's one. It is a rose that will make 10 to 15 feet growth in a season, and show a profusion of bloom every day. Foliage strong, healthy and luxuriant. Buds exquisite; flowers large, beautifully shaped, and of that rich, dark velvety crimson color seen only in the Jacqueminot. We do not hesitate to pronounce it the finest Rose in existence, as it will make a large growth and is loaded with its glorious blossoms all the time. For Winter-blooming it has few equals in beauty and probably none in profusion. Just the Rose to train up in a conservatory or bay window, where its exquisite blossoms will show to wonderful advantage. Price, 15 cents each; 4 for 50 cents; two-year-old plants 50 cts. each.

MAMAN COCHET—Best new Rose introduced to date. The buds are long and elegantly pointed. As they expand the petals show great depth and richness, sometimes measuring two and a half inches from base to tip. They are shell-shaped, waxy, thick, and shining, and overlap each other in folds of silvery pink, deepening to bright rose in the circle of uncurling edges. The large, high-built, open flower is an elongated half-globe, perfectly double, and enchanting in fragrance and delicate brightness. The tips and reverse of petals show pearl-pink glints and shadings of rosy-mauve; at their base the deep, rich, full center has a glow of soft chamois-orange. The plant is strong and clean in growth, blooming constantly and profusely. 15c., two for 25 cents.

New Tea Rose "Jewel," the Rose of Many Colors

We now offer the most remarkable Rose in cultivation, and extremely novel and beautiful. Jewel produces flowers that range in color from dark orange yellow to crimson, variegated, blotched, mottled, etc. A plant in bloom shows no two colors alike. Some will be dark yellow,

others light yellow, buff, light and dark crimson, pink, blush, etc., while others will be beautifully variegated. As may well be imagined, the sight which such a plant in bloom presents is a novel and beautiful one. It is a true Tea Rose, the flower being large and delightfully fragrant, and in both bud and bloom exquisitely beautiful. It is a free grower and profuse bloomer. Price, 20 cents each; three for 50 cents; large, two-year-old plants, 50 cents each.

NEW YELLOW SOUPERT, "MOSELLA"—This splendid novelty we have just secured from Germany. It is almost identical with that of the parent, Soupert. It blooms in profuse clusters of three to five flowers, which are very double, ball shaped and open, like a Camelia flower. The petals are tinted white, on beautiful light yellow ground, extending to the middle of the petals. The plant is dwarf, bushy and free bloomer. We take great pleasure in offering this fine Rose this year. It is sure to be a popular companion to the original Clotilde Soupert. Price, 20 cents each; large two-year-old plants, 40 cents each.

New Hardy Yellow Climbing Rose, Yellow Rambler.

The flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of the Crimson Rambler. The color is a decided yellow. Many Roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is a clear, decided yellow. The flowers are of a moderate size, cup-shaped, nearly full, of very pretty form, very sweetly scented. A large bush in full bloom is one of the most beautiful and magnificent sights imaginable. The habit of growth is very vigorous. Price, 20 cents each; three for 50 cents; large size, 50 cents.

The New Climbing Wootton Rose.

When the Wootton Rose was introduced some years ago, it created a sensation in this country; and it has ever since been grown by florists as a valuable cut flower. The value of the New Climbing Wootton will therefore be still more apparent, inasmuch as it is perfectly hardy out of doors, having withstood a temperature below zero. It makes an early growth and in one season produces shoots 15 to 20 feet in length and nearly an inch thick, the branches being literally laden with its well known largely rosy crimson fragrant flowers from every leaf and stem. Much as Crimson Rambler has been praised it can scarcely be compared with the Climbing Wootton for profusion of bloom, beauty of color or magnificence of growth. \$500 was paid the fortunate owner for the original plant. Price for this magnificent New Climbing Rose, offered now for the first time, 25 cents each; large size, 50 cents each.

Beautiful and Fragrant Winter-Blooming CARNATIONS.

NEXT to Roses, we place Carnations as being the prettiest and sweetest flowers grown. They are especially adapted for Winter flowers. A customer writes: "Our better half had a plant of both red and white Carnations in the house last Winter, placed there in the Fall before they commenced blooming. They grew beautifully, and about the first of December commenced blooming. From that until May they were in flower continuously. At times as many as fifty blooms could be seen on them at once, and they completely filled the house with their fragrance."

BRONZE GIANT—A mammoth incurved Japanese bloom, perfect habit; one solid mass of petals without an eye. Color, rich golden yellow, heavily shaded with the deepest crimson.

EIDERDOWN—One of the grandest new *Ostrich Plumes*; color, pure snow white, with broad, solid, incurving petals overlapping each other; a strong grower with stiff stems. Flowers lasting unusually long after cutting.

GEORGE W. CHILDS—The Jacqueminot Crimson Chrysanthemum. This variety is the best and most perfectly formed reflexed crimson variety yet introduced. The flowers are of massive size, with broad, stiff, reflexed petals. The color is a deep, rich, velvety crimson, with no shade of brown or chestnut. The stems are strong.

GEORGIENNE BRAMHALL—One of the finest sent out last year; grand globular flowers, incurving form. Color, soft primrose yellow, almost a cream.

GOOD GRACIOUS—Another introduction from Japan, and so remarkable for size as to suggest its name. The color is also unique, being a delicate shade of peach pink throughout. The form is remarkable; the petals are incurved and twisted, overlapping each other in irregular fashion, and resembling talons. Of all the splendid varieties introduced from Japan, this is perhaps the most remarkable for size, form and color, and stands alone in its unique beauty, there being nothing at all approaching it.

MRS. GOVERNOR FIFER—A most beautiful variety, Absolutely pure white flowers, quite regular in form, very large and flat, the lengths of the petals graduating to the center. Reminds one of a large satin rosette.

MRS. HIGINBOTHAM, (New)— Enormous bright pink, broad spreading Japanese variety, with extremely wide cupping and incurving petals, covered with glandular hair. The largest and best hairy variety to date, exceeding 12 inches in diameter.

HER MAJESTY—This is one of the grandest varieties ever offered to the public. It is a pearl colored sport from that renowned and justly celebrated Chrysanthemum, Mrs. E. G. Hill, and even eclipsing that magnificent variety. The petals are broad and of great substance, the flowers very large and carried well up on a strong and stiff stem. Its keeping qualities are unsurpassed, there is no variety to our knowledge that can compare with it for brilliancy or purity of tone and color. Size of flower is all that can be desired.

INGOMAR—One of the finest sorts for exhibition purposes known always a prize winner wherever shown, makes fine specimens for pots; color, yellow with bronze shadings, petals long and tubular.

MAJOR BONAFFON—Soft, clear, incurving yellow, full in the center and deep. In perfect form and finish, like Ivory at its best. Habit dwarf; keeping qualities excellent. Foliage well up to the flower, stem stiff; an ideal variety. Bound to be one of the Chrysanthemums necessary to every collection. Awarded Columbian medal.

MARION HENDERSON, New Early Variety—No engraving can show the rich, buttery yellow colors of the flowers, which is superb. It is full of petals and lasts a long time; in fact, although very early, it can yet be made late, because it remains perfect on the plant for a long length of time.

MME, GASTELLIER—Pure white; a large flower, fluffy double to the center; one of the earliest to bloom and one of the most showy varieties in the list.

MAD. BERGMAN—A grand new early Chinese variety of dwarf habit, very full in growth, and with large dark green foliage. The flowers are large and globular, with reflexed petals. Color, pure white, with creamy center. Especially valuable, because it is the earliest of all the flowering sorts.

The white flowers, although small, are produced in great profusion, and emit the most pleasing fragrance. The blooming period begins in the Fall and lasts for several months.
